# Bringing thought & action-provoking films to South Georgian Bay.

## ➔ Our Proposal

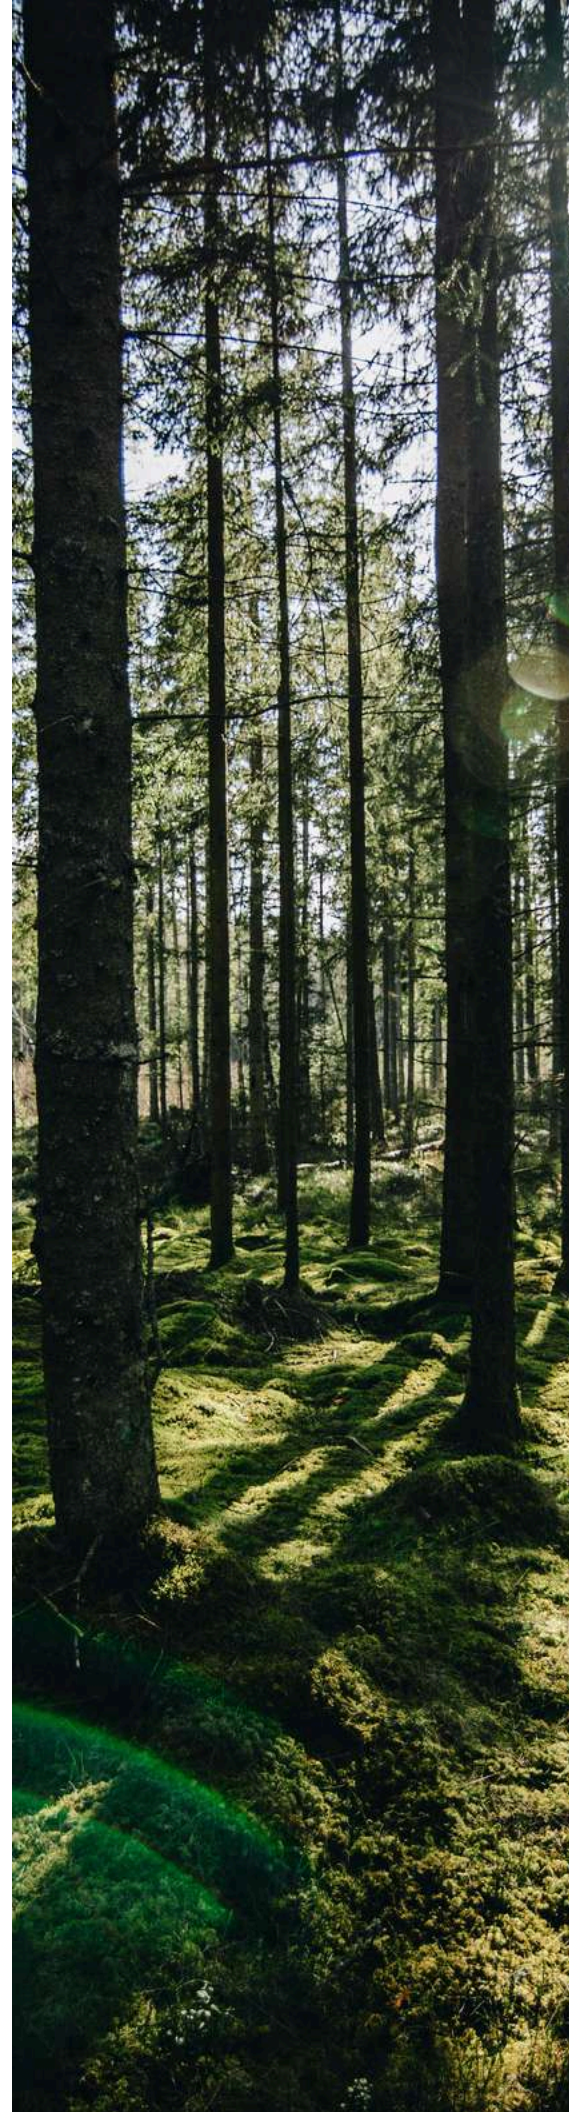

---

The Be the Change Documentary Series (BTC) was created in 2008 to educate and inspire the local community into action as it relates to our fragile ecosystem and what each of us can do to help preserve it.

The Blue Mountain Watershed Trust Foundation aims to provide our audience with a deeper and more comprehensive understanding of some of the most important ecological and social justice issues facing the communities of Planet Earth. Over the past several years, we have created incredible momentum and regularly pack the house! Be The Change (BTC) has become a Collingwood/Blue Mountains institution.

Individual tickets for the films are \$15 for adults, \$8 for students, and all proceeds support the Blue Mountain Watershed Trust's ecological preservation & education activities.

Tickets are sold in advance online at [www.btc.watershedtrust.ca](http://www.btc.watershedtrust.ca)

# About BTC18

## ➡ Venue

---

We are continuing to screen films at the Simcoe Street Theatre, located in the Downtown Collingwood Heritage District. This prime location makes it easy to meet up with friends at one of the nearby local restaurants before or after the film.

This venue provides a safe and comfortable environment for an audience of 295. Filmgoers can enjoy the current art show in the theatre hallways prior to the film.

## ➡ Tickets

---

Tickets can be purchased in advance on our website [bethechangefilmseries.com](http://bethechangefilmseries.com). The tickets are now: Adults \$15 and for Students \$8.

**As a premier sponsor, you will have two complimentary tickets for each film!**

# We need the natural world: help us protect it

---

BLUE  
MOUNTAIN

## Who you are supporting...

The Blue Mountain Watershed Trust Foundation

## Our Vision

A thriving Blue Mountains watershed ecosystem where people respect and live in harmony with nature.

---

## Preserve and enhance the blue mountain watershed ecosystem

---

There are three main reasons why people should value (and join) the Watershed Trust:

01

We protect and rehabilitate our remaining wild natural places

02

We enlighten people on environmental issues in our Watershed

03

We hold accountable water-takers, developers, politicians, municipal and provincial governments

In these days of explosive growth throughout the South Georgian Bay region, the work of the Watershed Trust is more important than ever before. Our goals are the protection, wise use management and enhancement of:

- ✓ Surface and groundwater quality and quantity
- ✓ Significant resource areas, e.g. wetlands, woodlands, groundwater discharge and recharge areas
- ✓ Fish and wildlife habitat
- ✓ Natural linkages such as ravines, valleys and stream corridors
